

AIRGO Air Cannon™

2018

The AIRGO© is our newest 250 feet hand-held launcher that can use multiple air sources making it the most versatile cannon on the market. Easily switch between Co2, HPA Compressed Air, or connect a common air compressor or tank directly. The Airgo features a variable range of (10-250+ft), regulated remote hose, and an 18" clear lexan barrel for safe loading and launching. Our exclusive low pressure valve technology gets you more shots at maximum distance than any other model on the market. The remote air source makes this cannon ergonomic, lightweight, and extremely portable.

AIRGO PACKAGE INCLUDES:

- One AIRGO Air Cannon
- One 20oz CO² tank - Shoots 40-45 shots off one full tank at max range
- Belt and holster
- Coiled remote hose
