Candy Cannon

\$99
MAP

The Candy Cannon is the perfect way of adding a little excitement to your parade float or event. The Candy Cannon is constructed of durable machined aluminum and aircraft grade lexan. Its one hand operation is easier than all other similar products and we offer a warranty with lifetime support as well. By using standard 12 gram cartridges, this lowers the per shot cost dramatically. Plus, the security of knowing that the cartridges are available at any sporting goods store means that in a pinch, more fuel is only a super store away.
